PROFESSIONAL SUMMARY

Fullstack Developer with 2+ years of hands-on experience building scalable web applications using React and Node.js. Strong background in backend architecture, API design, and delivering production-ready systems across multiple stacks. Proven ability to quickly adapt to new technologies and contribute effectively in fast-paced development environments.

TECHNICAL SKILLS

Frontend:

React, Next.js, JavaScript (ES6+), HTML, CSS, Tailwind CSS

Backend:

Node.js, Express, NestJS, Django, FastAPI

Databases:

MongoDB, PostgreSQL

Tools & DevOps:

Docker, AWS, Git, CI/CD, REST APIs

Team workflow:

Github, Slack, Jira

Core Strengths:

Backend architecture, API design, debugging, web accessibility and proper semantics, metadata, performance optimization, system design, teamwork

PROFESSIONAL EXPERIENCE

IT / Data Entry Personnel

Enugu SME — Enugu, Nigeria

- Managed and maintained structured digital records, ensuring accuracy and consistency across systems
- Supported internal IT operations including troubleshooting, system organization, and workflow efficiency
- Collaborated across teams to improve reliability of data processes and day-to-day technical operations

PROJECT EXPERIENCE

MediAxis (HMS-as-a-Service Platform)

- Built a multi-tenant healthcare management system using React/Next.js and Node.js/Django
- Designed and implemented RESTful APIs, authentication systems, and role-based access control (RBAC)
- Developed dashboards and real-time workflows optimized for performance, scalability, and security
- Contributed to backend architecture and modular system design

Cleanspark (Solar Company Website)

- Developed and deployed a responsive, production-ready company website
- Implemented scalable frontend architecture with reusable components
- Collaborated using Git-based workflows to deliver features efficiently

Additional Projects & Open Source

- Built multiple fullstack and frontend applications with focus on clean architecture and performance
- Worked with structured backend frameworks and modular architectures similar to enterprise Node.js systems
- Actively contribute to open-source projects with verifiable work on GitHub
- Emphasize maintainable code, reusable components, and scalable backend systems

EDUCATION

University of Nigeria, Nsukka

B.Sc. Computer Science with Statistics

Completed coursework and examinations (awaiting graduation)

ADDITIONAL INFORMATION

- Strong ability to learn and adapt quickly to new frameworks and technologies
- Experience working across multiple backend frameworks and architectural patterns
- Comfortable working independently and in collaborative teams
- Available to start immediately
